

# City of Modesto Grease Interceptor/Trap Cost Share Program Application to Participate

I/We as an owner of a Food Service Establishment (FSE) are requesting to participate in the City of Modesto Grease Interceptor/Trap Cost Share Program (CSP) for installation or replacement of a grease interceptor/trap. As the owner of an FSE I/We are the legal owners of the following described property.

Property Owner: \_\_\_\_\_

Site Address: \_\_\_\_\_

Owner/Applicant's Name: \_\_\_\_\_

Mailing Address: \_\_\_\_\_

Telephone: \_\_\_\_\_  
(Home) (Work)

FSE Owner: \_\_\_\_\_

Site Address: \_\_\_\_\_

Owner/Applicant's Name: \_\_\_\_\_

Mailing Address: \_\_\_\_\_

Telephone: \_\_\_\_\_  
(Home) (Work)

I/We are requesting the following option for cost sharing offered through the program:

Reimbursement option

AS APPLICANT(S), I/WE AGREE TO THE FOLLOWING TERMS:

I/We understand and agree that this application may be refused if it is determined that any of the following situations exist:

1. The facility is not an FSE
2. The FSE is not located within the Modesto Sewer District
3. The work is not completed by a Licensed General Contractor, or
4. All necessary paperwork is not submitted to the CSP Coordinator and approved prior to the start of any work.

I/We agree that the City of Modesto will provide financial assistance through reimbursement for fifty-percent (50%) of the cost of a grease interceptor/trap unit or device to be installed by a licensed contractor.

I/We agree that all installation cost and any remaining costs is the responsibility of the FSE owner at my/our expense.

# City of Modesto Grease Interceptor/Trap Cost-Share Program Application to Participate

I/We understand that the Section 5-6.1003(e) of the Modesto Municipal Code states:

FOG Pretreatment Required. Every FSE and MFF is required at the time of construction, remodel, and/or change in operations to install, operate and maintain an approved type and adequately sized grease removal device necessary to maintain compliance with the objectives of this chapter, subject to the waiver provisions of Section 5-6.1006. The grease removal device shall be adequate to separate and remove FOG contained in wastewater from FSEs and MFFs prior to discharge to the collection system, as determined by the then current adopted addition of the California Plumbing Code (CPC). Fixtures, equipment, and drain lines located in the food preparation and clean up areas of any FSEs or MFFs that are a source of FOG discharges shall be connected to the grease interceptor. Compliance shall be established as follows:

2. Existing FSEs or MFFs and Commissaries.

- ii. Any existing FSE or MFF, which, in the Director's determination has caused or contributed to grease-related blockage in the collection system, has one {1} or more private sewer laterals connected to hot spots and/or has contributed significant FOG to the collection system, shall be deemed to have reasonable potential to adversely impact the collection system and shall be required to install a grease control device within one hundred eighty {180} days upon issuance of written notification by the Director.
- iii. Any existing FSE or MFF or commissary that undergoes remodeling and/or a change in operations, as defined in this article, shall be required to install a grease control device or to obtain a waiver in accordance with Section 5-6.1006.
